This will impose no paperwork burden on the public.

Summary of Order

1. On August 17, 1998, Metropolitan Edison Company, Pennsylvania Electric Company and Jersey Central Power & Light Company, collectively trading as GPU Energy (GPU), and the Commonwealth of Pennsylvania (Commonwealth) filed a Request for Waiver of 47 CFR 90.179(a). The request seeks permission for eligibles in the Public Safety Pool and in the Industrial/Land Transportation (I/LT) Category to operate and utilize a statewide, 800 MHz conventional and trunked Public Safety/Power Radio Service radio system on a non-profit, cost shared basis.

2. GPU is currently licensed to operate 800 MHz I/LT facilities under the call signs WPDC939, WPDC922, WPDC935 and WPDC931. The Commonwealth has been issued licenses for conventional and trunked channels in the Public Safety Radio Pool. GPU and the Commonwealth request a waiver in order to share a Power Radio Service system, which is in the I/LT category, with a Public Safety Radio system. They request this waiver because 47 CFR 90.179(a) provides that a licensee may share its radio station only with users that would be eligible for a separate authorization to use those frequencies. Public safety entities are not eligible to be licensed on 800 MHz I/LT Category spectrum. Similarly, I/LT licensees are not eligible to be licensed
